Dear Steve,

Attached is one of the two letters we discussed. Could you please request that this letter be updated to reflect today's reality for Arkwood site reuse and sent again to Mr. Rhodes?

Thanks,  
Curt

Curt,

Here's the letter to Clyde Rhodes. A letter to the ADEQ Director would need to come from the Region 6 Superfund Division Director. That would take some time and effort - especially since ADEQ and EPA agree on industrial reuse of the site. I hope this will suffice.

Thanks,  
Casey

Hi Casey, sure please go ahead. Anything to get ADEQ more engaged. Maybe you could suggest something that will get them moving. Would Gloria write to Ms. Marks about it? Could you write the letter to Clyde Rhodes & copy Ms. Marks?

Thank you,  
Curt

On second thought, I'll send it Clyde Rhodes but for this letter to go to the ADEQ

director it would have to come from someone definitely higher up than me.

Clyde's been in some of the calls and this site falls under his Hazardous Waste Division.

Let me know if you'd still like me to send it to him.

Hi Casey,

Could you possibly address the same or similar letter to:

Teresa Marks  
Director, Arkansas Department of Environmental Quality  
5301 Northshore Drive  
North Little Rock, AR 72118-5317

...with a copy to me please? That would be extremely helpful.

Thank you,

Curt

Hi Casey,

The below-named gentleman, Mr. Norton, is interested in the Arkwood site, as he had been informed that it is available for industrial redevelopment, with conditions.

Mr. Norton requested a letter from EPA confirming that I do have your approval to actively seek BFPPs for the Arkwood site. (Mr. Norton would not be the BFPP, but is the agency director who might be publicizing the Arkwood site's availability.)

Could you please write him such a letter and copy me? I would like to use it in the future to show anyone else who may have this question. (Sorry I don't have his email address.)

Thank you,

Curt
